

*Akeley Allotments Report March 2013*

The weather was a big factor during the year. Those who were able to work their allotments on a daily basis were able to get on them when the rain allowed. Those who only had evenings and weekends were not able to keep their allotments tidy or grow much due to so many wet weekends.

In general one end of the allotment field has been used really well while the other half of the field seems to have suffered due to the bad weather conditions during the summer.

Renewal letters will be going out during the next week so that we can establish if those who had problems with the weather or other commitments last year want to carry on.

I have a waiting list of one at the moment so there is a good chance that they will be digging on their allotment soon.

Mary Taylor
