

Akeley Allotments Report March 2014

This year the allotments will have been in existence on the playing fields for 10 years.

Several allotments are still in the hands of the original holders and these allotments are always well tended and ahead of the seasons. Other allotments holders are also keeping things turning over nicely.

There are 3 allotments vacant at the moment but hopefully these will be taken soon as the spring approaches.

I have been advertising the vacant allotments in the Akeley News Letter but have not had any takers over the winter months. With the change of weather hopefully this will change and by the end of April all of them will be taken and planting well on the way.

Renewal letters are due to go out next month.
