

Akeley Parish Website Report

March 2017 – March 2018

The first year of running of the Parish website was productive one.

The changes implemented allow ease of access to all the information contained on the website which in turn makes using the website easier for all visitors to the site.

The main changes made were:

- Reorganisation of all the information on the website.
- Update of all information contained on the site.

The website traffic tracking that I implemented helps keep track of visitors and gives a breakdown of all activity of the website.

I have included the website traffic information on page 2 that covers the last year.

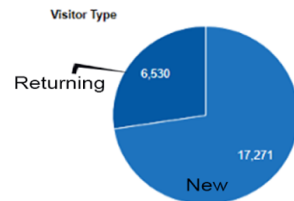

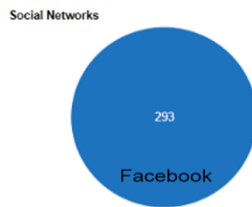

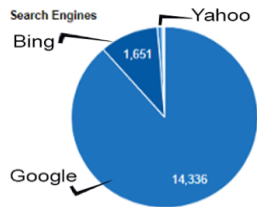

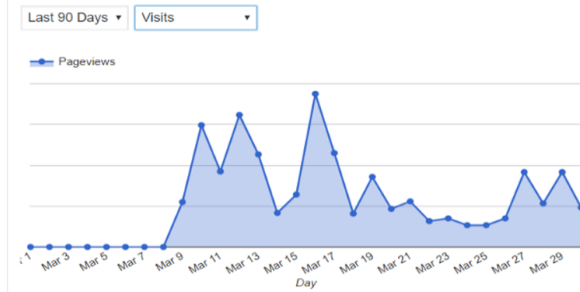

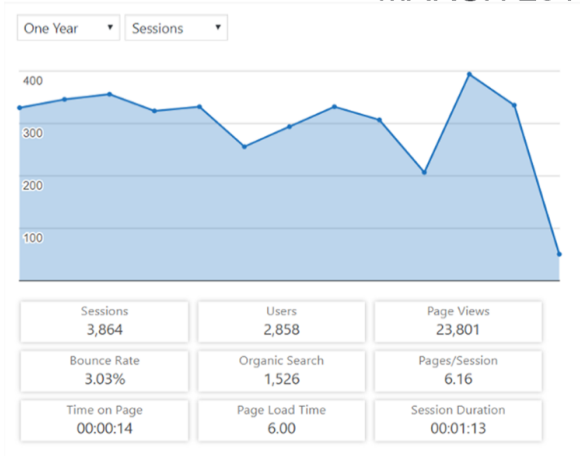

I hope the Parish Council are still happy with my work and I would appreciate any feedback and / or recommendations for any improvements for the website.

Steven Goodwin.
Webmaster.
